(a) From June quarter 1989, September quarter 1991 and September quarter 1992, respectively, data are not comparable with those for previous periods as some caravan parks previously classified as short-term were reclassified as long-term. (b) Including both on-site van sites and other powered sites. (c) From September quarter 1992, caravan park sites, etc. permanently reserved but only casually occupied by their tenants have been recorded continuously as site nights occupied irrespective of whether the tenants of individual sites were in residence on any particular night. Occupancy measures from September quarter 1992 are not therefore comparable with those from previous quarters.
